Formaldehyde Solution, 10% Formalin, Neutral Buffered

Section 1

Product Description

Product Name: Formaldehyde Solution, 10% Formalin, Neutral Buffered

Recommended Use: Science education applications

Synonyms: N/A

Distributor: Carolina Biological Supply Company

2700 York Road, Burlington, NC 27215

1-800-227-1150

Chemical Information: 800-227-1150 (8am-5pm (ET) M-F)

Chemtrec: 800-424-9300 (Transportation Spill Response 24 hours)

Section 2

Hazard Identification

Classification of the chemical in accordance with paragraph (d) of §1910.1200;

DANGER

Combustible Liquid Harmful if swallowed or if inhaled. Causes skin irritation. May cause an allergic skin reaction. Causes serious eye damage. May cause cancer. Causes damage to organs. Harmful to aquatic life.

GHS Classification:

Serious Eye Damage/Eye Irritation Category 1, Skin Sensitisation Category 1, Carcinogenicity Category 1A, Specific Target Organ Systemic Toxicity (STOT) - Single Exposure Category 1, Skin Corrosion/Irritation Category 2, Hazardous to the aquatic environment - Acute Category 3, Flammable Liquid Category 4, Acute Toxicity - Inhalation Vapor Category 4, Acute Toxicity - Oral Category 4

Other Safety Precautions: IF exposed: Call a POISON CENTER or doctor/physician.

Section 3 Composition / Information on Ingredients

| Chemical Name | CAS# | <u>%</u> |
|--------------------------------------|-----------|----------|
| Water | 7732-18-5 | 93.6 |
| Formaldehyde | 50-00-0 | 3.7 |
| Methanol | 67-56-1 | 1.2 |
| Sodium Phosphate, Dibasic, Anhydrous | 7558-79-4 | 0.65 |
| Sodium Phosphate, Monobasic | 7558-80-7 | 0.4 |

Section 4

First Aid Measures

Emergency and First Aid Procedures

Inhalation: IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.

Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy

to do. Continue rinsing.

Skin Contact: IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash before reuse. If

skin irritation or rash occurs: Get medical advice/attention. Wash contaminated clothing before reuse.

Ingestion: IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

Section 5

Firefighting Procedures

Extinguishing Media: Use dry chemical, CO2 or appropriate foam.

Fire Fighting Methods and Protection:

Firefighters should wear full protective equipment and NIOSH approved self-contained

breathing apparatus.

Fire and/or Explosion Hazards:

Fire or excessive heat may produce hazardous decomposition products. Vapors may travel back to ignition source. Closed Containers exposed to heat may explode.

Hazardous Combustion Products:

Carbon dioxide, Carbon monoxide

Section 6

Spill or Leak Procedures

Steps to Take in Case Material Is Released or Spilled:

Exposure to the spilled material may be severely irritating or highly toxic. Follow personal protective equipment recommendations found in Section 8 of this SDS. Personal protective equipment needs must be evaluated based on information provided on this sheet and the special circumstances created by the spill including; the material spilled, the quantity of the spill, the area in which the spill occurred, and the expertise of employees in the area responding to the spill. Never exceed any occupational exposure limits. Ventilate the contaminated area. Keep upwind of the spilled material and isolate exposure. Remove soiled clothing and launder before reuse. Isolate area. Keep unnecessary personnel away. Prevent the spread of any spill to minimize harm to human health and the environment if safe to do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Gather and store in a sealed container pending a waste disposal evaluation.

Section 7

Handling and Storage

Handling: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not breathe

dust/fume/gas/mist/vapors/spray. Avoid breathing dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Do no eat, drink or smoke when using this product. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Avoid release to the environment. Wear protective gloves/protective clothing/eye protection/face protection. Use personal protective equipment as required. Do not breathe dust/vapor. Do not get in eyes, on skin, or on clothing. Retained residue may make

empty containers hazardous; use caution.

Store in a well-ventilated place. Keep cool. Store locked up. Suitable for any general chemical storage. Storage:

Storage Code: Blue - Toxic. Store separately in a secured area.

Section 8

Protection Information

| | <u>ACGIH</u> | | OSHA PEL | |

Control Parameters

Engineering Measures: Local exhaust ventilation, process enclosures, or other engineering controls are

necessary when handling or using this product to avoid overexposure.

Personal Protective Equipment (PPE): Lab coat, apron, eye wash, safety shower.

Respiratory Protection:

Respiratory protection may be required to avoid overexposure when handling this

product. General or local exhaust ventilation is the preferred means of protection. Use a respirator if general room ventilation is not available or sufficient to eliminate symptoms. Wear a NIOSH approved respirator if levels above the exposure limits are possible. Wear chemical splash goggles when handling this product. Have an eye wash station

Eye Protection:

Avoid skin contact by wearing chemically resistant gloves, an apron and other protective **Skin Protection:**

equipment depending upon conditions of use. Inspect gloves for chemical break-through and replace at regular intervals. Clean protective equipment regularly. Wash hands and other exposed areas with mild soap and water before eating, drinking, and when leaving

Nitrile, Neoprene, Polyvinyl chloride Gloves:

Section 9

Phvsical Data

Formula: CH2O in H2O Molecular Weight: 30.02 g/mol Appearance: Colorless Liquid Odor: Strong Alcohol Odor Pungent Odor Threshold: No data available

pH: No data available

Melting Point: No data available Boiling Point: 100 C Estimated 100 C

Flash Point: 85

Flammable Limits in Air: N/A N/A

Vapor Pressure: 0.002 hPa at 25 °C Evaporation Rate (BuAc=1): Less than 1 Vapor Density (Air=1): 1.03 (air = 1) Specific Gravity: Approx. 1.0 Solubility in Water: Soluble

Log Pow (calculated): No data available Autoignition Temperature: No data available Decomposition Temperature: No data available

Viscosity: No data available Percent Volatile by Volume: < 5%

Section 10 Reactivity Data

Reactivity: Not generally reactive under normal conditions.

Chemical Stability: Stable under normal conditions.

Conditions to Avoid: Sparks, open flame, other ignition sources, and elevated temperatures. Temperatures

above the high flash point of this combustible material in combination with sparks, open

flames, or other sources of ignition.

Incompatible Materials: Water-reactive materials, Acids, Metals, Metal Salts, Oxidizing materials, Peroxides,

Strong reducing agents, Strong oxidizing agents

Hazardous Polymerization: Will not occur

Section 11 Toxicity Data

Routes of Entry Inhalation, ingestion, eye or skin contact.

Symptoms (Acute): Gastrointestinal,

Delayed Effects: Listed by NTP, IARC as causing cancer.

Acute Toxicity:

| Acute Toxicity. | | | | |
|--|------------|------------------------------|------------------|-------------------------|
| Chemical Name | CAS Number | Oral LD50 | Dermal LD50 | Inhalation LC50 |

| Sodium Phosphate, Dibasic, Anhydrous | 7558-79-4 | Not listed | Not listed | Not listed |

Chronic Effects:

Mutagenicity: No evidence of a mutagenic effect.

Teratogenicity: No evidence of a teratogenic effect (birth defect).

Sensitization: Evidence of a sensitization effect.

Reproductive: No evidence of negative reproductive effects.

Target Organ Effects:

Acute: Eyes, Skin, Respiratory system Chronic: Respiratory system, Eyes, Skin

Section 12 Ecological Data

Overview: Slight ecological hazard. In high concentrations, this product may be dangerous to plants and/or

wildlife.

Mobility: No data

Persistence: Evaporation into atmosphere, dissolved in water., Biodegradation

Bioaccumulation: Bioconcentration is not expected to occur.

Degradability: Biodegrades quickly.

Other Adverse Effects: Material has microbiocidal properties.

Section 13 Disposal Information

Disposal Methods: Dispose in accordance with all applicable Federal, State and Local regulations. Always

contact a permitted waste disposer (TSD) to assure compliance.

Waste Disposal Code(s): Not Determined

Section 14 Transport Information

Ground - DOT Proper Shipping Name: Air - IATA Proper Shipping Name:

Combustible Liquid, n.o.s (formaldehyde, methanol), NA1993, PG Combustible Liquid, n.o.s (formaldehyde, methanol), NA1993,

PG II

All components in this product are on the TSCA Inventory.
