	breathing is difficult, give artificial resuscitation if not breathing.
Eye Contact	Irrigate with water for 15 minutes. Hold eyelids open to ensure adequate flushing. Seek
	immediate medical assistance.

SECTION 5 - FIRE FIGHTING MEASURES

May form flammable mixtures with air and flash at room temperature or upon slight application of heat. Vapors are heavier than air and may travel considerable distance. Explosion hazard in confined spaces if exposed to ignition source. Mists or sprays may be flammable below fuel's normal flash point. Keep away from heat or open flame.

Extinguishing Media:Use Carbon Dioxide, Dry Chemical or Foam extinguishers.Fire Fighting:Fire fighters to wear respiratory protection (positive pressure if available).
Do not enter enclosed or confined spaces without proper protective equipment. If leak or
spill has not ignited, use water spray to disperse vapors. Water, fog and foam may
cause frothing and spattering. Water stream may spread fire. Use water to cool
containers exposed to flames.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Use personal safety equipment at all times as detailed in Section 8. Evacuate area and shut off all sources of ignition. Contain spill and keep from entering waterways or sewers. Absorb with inert material. Shovel or sweep spill and place in closed container for disposal. Advise EPA or state agency if required.

	SECTION 7 - HANDLING AND STORAGE
Handling:	Keep product away from high energy ignition sources, heat, sparks, pilot lights, static electricity an open flame. Avoid contact with skin and inhalation of vapors or mists. Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Remove fuel soaked clothing, shoes and gloves and launder before reuse or discard.
Storage:	Store fuel in a cool area with adequate containment in the event of spills. Check containers periodically for leaks.
Special Preca	ons: To prevent and minimize fire or explosion risk from static accumulation and discharge, effectively bond and/or ground product transfer system. Electrical equipment and fittings must comply with local fire prevention regulations for this class of product. EMPTY CONTAINER WARNING: Empty containers retain residue (liquid and/or vapor) an can be dangerous. DO NOT PRESSURIZE, CUT, WELD, BRAZE, SOLDER, DRILL, GRIND EXPOSE SUCH CONTAINERS TO HEAT, FLAME, SPARKS, STATIC ELECTRICITY OR OTHE

Engineering Controls:	Use only in a we	ll ventilated area to keep fuel mists belo	ow applicable standards. See	
	Section 3 for exp	oosure limits. Use non-sparking equipm	ent and lighting in areas where	
	explosive vapors may form. Loading, unloading, tank gauging, etc., remain upwind. Keep
